

Ümit KARACİVİ

İstanbul/Türkiye • (552) 334 6114 • umit.karacivi@outlook.com • www.umitkaracivi.com.tr

I'm a computer engineer with 40 years of IT experience and 27+ years of software development. I am among the first 1000 computer engineers to graduate in Türkiye. I spent the early years of my career as a software developer and department manager at an international company. Later, I provided software development and consulting services for companies across various sectors. In recent years, I've focused on training and consulting services, particularly in areas such as MCSD (.Net, .Net Core, C#, Entity Framework, etc.) and web technologies. I have many years of experience in team management and mentoring.
